I like sprinting as I'm fast and good at it. I like to do anything except from dancing! I would like to pick our own lessons.

Y4 - I like the team building work because some people don't have good teamship and were building on it. I like all the games and wasting energy.

It's good to do exercise in school. We should do more PE as all you do is sitting down all day and people need to stay energetic. People may not have time to do stuff after school so it's good to do exercise in school.
